

## Instructions for completing Question 4 of the Membership Survey – Percentage of New Admitted TE

4. Approximately what percentage of the new admitted TE candidates at your institution were offered a TE scholarship for the upcoming academic year:

- Not receiving new import candidates for 2015-2016**
- 0%-10%**
- 11%-40%**
- 41%-60%**
- 61%-90%**
- Usually all or most of the qualified candidates receive an award offer**

a. You need to collect the following information:

- i. Total number of TE applications received by the school
- ii. Total number of above who applied for admission to the school
- iii. Total number of the above admitted to the school
- iv. Total number of admitted students who were offered a TE award
- v. Actual number of awarded TE students who actually enrolled

For example

- i. 165 TE applications
- ii. 105 of the 165 actually applied
- iii. 80 of the 105 were admitted
- iv. 60 of the 80 were offered
- v. 40 of the 60 enrolled

And the answer is: 75% or in the box above you will select the 61% to 90% option.

We encourage you to keep these numbers on record in case there are families who question them. By all using the same formula there should be less confusion.
